EXPERIENCE

PRIME FOOD FACTORY

Operations Analyst • Shymkent, Kazakhstan • Aug 2025 - Aug 2026

- Prepared official documentation for the sale of goods and services and coordinated with the accounting department
- Processed requests and coordinated the movement of raw materials from warehouse to production, as well as finished goods to the warehouse
- Managed documentation for the verification of proper use of a 160M KZT loan by the bank and Damu Fund, coordinating with external appraisers
- Verified incoming goods against supporting documentation and coordinated workflows between warehouse, production, accounting and external organizations

PERSONAL PROJECTS

Tracer Mechanics Unity C#

- Developed modular gameplay systems for weapons, abilities, health and damage
- Implemented Blink, Recall, projectile/hitscan weapons, cooldowns and ability charges
- Applied OOP, interfaces and data-driven architecture to create reusable gameplay systems

Zero Direction Unity C#

- Participated in Do You WANNA Jam?! 2026, developing a playable game within a game jam timeframe
- Developed a platformer featuring dynamic gravity direction changes as the core gameplay mechanic

Tooth Fairy Unity C#

- Developed a 2D game featuring time-based exploration and tooth collection mechanics
- Implemented a timer system, resource management, live UI stats, interactions

Nova Expedition Trials Unity / C#

- Combined multiple tutorial-based mini-games into a single project, connected through a visual novel narrative
